Good morning Valerie,

I think that's a great idea. I'm willing to maintain the database, but I have to ask for release.

What do you think about linking to the respective PDF-file (also in a shared Folder)? It is a little more work to establish, but then easier to work with.

I'll contact you again when I have the ok from the management.

Have a nice weekend,
Barbara

Dear Barbara,
Thanks very much for the file and your note. I will keep an eye out for the CD-ROM and files.

I wanted to mention that I was also able to spend some time in the database you forwarded last week. It is very comprehensive! What do you think about the possibility of posting a copy of that database to a space on the WSA shared folder? If you would be willing to keep a copy of the most up to date version of the database posted to a folder where you and I had access, that might be a simple way for us to share up to date information. What do you think?

Kind regards,
Valerie

Subject: INBIFO/CRC publications 1990 and after

Dear Valerie:

Please find attached a file with bibliographic information of INBIFO/CRC publications since 1990. The first 4 columns of the worksheet contain additional information about the respective publication: remarks, PDF-filename of publication or poster, and INBIFO's internal publication number.

The PDF-files will be sent on a CD-ROM by separate mail.

A few older publication are not yet available in electronically form and will be sent later. Some poster files will be sent as paper copies - for the moment - due to technical problems during conversion into PDF-file. As soon as our Computer Support department has solved the problem, the files in question will also be sent in electronically form.

In future, I will send you the PDF-files of publications as soon as they are available.

Please don't hesitate to ask if there are any questions.

Best regards,
